OBJECTIVE

A results-oriented Full Stack Developer with extensive experience working with various modern web technologies (Next.js, React.js, Node.js, JavaScript and TypeScript). I want to use my knowledge of building and supporting scalable web applications and implementing Technical SEO to create value for innovative solutions. I enjoy creating solutions that are efficient for users, while I continue to expand my technical skills with others in a team-oriented environment.

EDUCATION

Odisha University of Technology and Research — Bhubaneswar, Odisha
Master in Computer Applications (MCA) — *Sep 2024 – Jun 2026*

Science College of Hinjilicut — Ganjam, Odisha
Bachelor of Science (Mathematics) — *Sep 2021 – Jun 2024*

EXPERIENCE

Full Stack Developer Intern — Jun 2025 – Present
Edubiz Networks — *Remote*
- Created user-friendly websites and site features while working as part of a team in an Agile environment.
- Developed contemporary, interactive user interface components using Next.js, TypeScript, and Tailwind CSS.
- Implemented technical SEO and Next.js on-page optimizations, resulting in a 30% increase in search rankings.
- Utilized a CMS for more efficient content management and backend support.
- Integrated external APIs and services to further enhance the functional capabilities of the web application.
- Deployed and monitored performance, security, and usability across 7+ production websites, ensuring high reliability and optimal user experience.

Projects:
- Edubiz Networks - edubiznetworks.com
- Surelink - surelink.edubiznetworks.com
- Spottlite - spottlite.edubiznetworks.com
- Boostup - boostup.edubiznetworks.com

Web Developer Intern — Mar 2025 – May 2025
Edubiz Networks — *Remote*
- Collaborated with cross-functional teams to design and build responsive websites.
- Wrote clean, maintainable code using HTML, Tailwind CSS, JavaScript, and Next.js.
- Applied best practices for performance optimization and mobile responsiveness.
- Engaged in code reviews to improve code quality and enhance development skills.

PERSONAL PROJECTS

Attendox | Full-Stack Web Application | *Next.js, Supabase, Drizzle ORM, JavaScript, Tailwind CSS*
- Developed a comprehensive attendance management system for educational institutions using Next.js, Supabase, and Drizzle ORM.
- Implemented secure authentication and optimized workflows for adding, updating, deleting, and managing student records.
- Created dynamic attendance tables with monthly reports to track both daily and monthly attendance patterns.
- Built an interactive dashboard displaying monthly attendance percentages and 7-day insights using charts and data visualization.
- Integrated PDF export functionality for student lists, enabling convenient data sharing and report generation.
